- Software as a Service
- Neo-lending
- Multi-currency
- Government
- Non Governmental Organizations

- GDV in line with prior quarter (4%) despite COVID lockdown impacts and a number of public holidays
- Excluding PFS, EML GDV grew by 22% vs PCP mainly from improved volumes in Australia
- Yield in line with expectations at 109bps, program mix stable

#### GPR

- Salary packaging transition completed ahead of schedule with 300k accounts live
- PFS launched Home Office program in Q4
- EML launched with Mastercard in New Zealand

### Gift & Incentive (G&I)

#### Use Cases

- Mall Gift Cards
- Employer incentives
- Cross-Sell
- Consumer incentives

- GDV lower in Q3 vs Q2 owing to seasonality
- GDV lower vs PCP due to impact of Canadian and European lockdowns
- Yield improved vs prior quarter and PCP due to higher breakage rates due to Covid

#### G&I

- UK malls reopened on 12 April and volumes have started to improve
- US malls seeing improved volumes however with parts of Canada & Europe still in lockdown through Q3 & Q4 this remains a headwind

### Virtual Account Numbers (VANS)

#### Use Cases

- Commercial Payments
- Buy Now Pay Later

- GDV down as a result of lower volumes in North America
- Yield in line with expectations at 12bps
- Lower volumes from BillGo (approx A\$260 million) as they move to in-house processing

#### VANS

- Australia and Europe have contributed to GDV with the launch of new programs in the BNPL and line of credit verticals
- Pending completion of Sentenial acquisition, segment to be renamed Digital Payments covering VANS and A2A payments

- Taking proven technology from our partnership in Australia, EML and FuPay are expanding into Europe.
- Combining EML's virtual card, A2A payments and Fupay's best-in-class cash flow and millennial credit product to offer a white label BNPL as a service solution.

# Regulatory Update

Central Bank of Ireland ('CBI')

## Current Status

- EML advised the market on 19 May 2021 that it had received correspondence from the CBI raising significant regulatory concerns ('Section 45 letter'). EML responded to the CBI's Section 45 letter within the deadline, on 27 May 2021.
- EML remains in an ongoing dialogue with the CBI in relation to their concerns through substantial responses, data and access to our teams.
- There is no statutory timeframe for the CBI to finalise its consideration of the matter.
- A project governance structure has been established to assist our local team in Ireland, including a subcommittee of the EML Board, members of the EML executive team, external expert regulatory consultants and legal resources.

## Communication

- We are working co-operatively with the CBI and its authorised officers.
- Communications with the CBI are confidential and we will provide updates when appropriate.
- EML is proactively communicating with, and providing information if and when requested, with other regulators in the regions where EML operates.

## Business Impact

- We continue to focus on EML's strong pipeline of new customers and support our existing customers, yet we are aware that ongoing uncertainty is a risk and challenge.
- Immediate one-off costs incurred for legal (Arthur Cox) and professional advisory (PriceWaterhouseCoopers) fees are expected to be less than \$2 million in FY21. In addition, we may see an impact of delayed program launches on establishment income and transaction fees which we can not quantify at this time.
- Financial impacts for FY22 can not be fully determined at this time.
